Re: Letter of Recommendation – Heartland Environmental Associates, Inc.

Dear Mr. Vijay:

The City of Indianapolis Brownfield Redevelopment Program (BRP) is pleased to offer this letter of recommendation for Heartland Environmental Associates, Inc. Over the last two years, Heartland has been a partner with the City on sixteen projects, the total contractual amount of which exceeded \$400,000. Heartland has managed a wide array of environmental projects for the BRP, including Phase I / II Environmental Site Assessments, Further Site Investigations, site remediation, oversight of industrial facility demolitions, and Federal and State grant administration and implementation.

Throughout these projects, Heartland has demonstrated impeccable professionalism, honest and frank guidance, and a continued commitment to improving the environmental quality in Indianapolis. In addition, Heartland is extraordinarily responsive and completed each project within the budget and timeframe provided.

The BRP looks forward to continuing our productive relationship and highly recommends the professional environmental services provided by Heartland. Please feel free to have potential clients contact me directly if they have additional questions.

Sincerely,

Steven A. Meyer
Brownfield Redevelopment Coordinator
